

I.C.R. W.U.A. Monthly Operator Notes
January 2019

Molly Way was flushed twice and the fire pumps exercised.

The easement road was checked twice to insure no leaks or issues with our lines

Still waiting on Forteline to fabricate the spools for the new well meters we will install them when the spools are complete

Meter reads went well this month, all new equipment seems to be working as planned

(3) new meters were installed in TRR

Monthly samples were collected and delivered to the lab. (No issues)

All equipment is working properly at this time

January was an uneventful month... just the way we like it
