

- #1- After a lot of consideration Fletch and i think that using the 2 hydrants available to us and chaining them will reduce the cost and if we are not successful with fixing the problem then we are set up for a realignment of the water line. it's 9ft deep now.
- #2- Line flushing and fire pump exercising ongoing
- #3- 5 meter installs for the month
- #4- Weeds are ongoing
- #5- I am working on getting the lake to cycle correctly, it's a trial by error thing.
- #6- All wells are working well at this time.
- #7- 54 Blue stake orders complete
